

Safety data sheet
in accordance with GOST 30333-2007

Print date: 24.03.2023

Revision: 24.03.2023

1 Identification of the substance/mixture and of the company/undertaking

- **Product identifier**
- **Trade name: FAWORI TAVAN IDEAL**
- **Relevant identified uses of the substance or mixture and uses advised against**
No further relevant information available.
- **Application of substance / mixture**
- **Details of the supplier of the safety data sheet**
- **Manufacturer/Supplier:**
Betek Boya ve Kimya Sanayi A.Ş.
G.O.S.B. Tembelova Alani 3200 Sokak No:3206
41400 Gebze/Kocaeli/Türkiye
Tel: 00 90 262 678 30 00
Fax: 00 90 262 641 21 68
SeymaNur.Bektas@betek.com.tr
- **Further information obtainable from: R&D Department**

2 Hazards identification

- **Classification of the substance or mixture**

Skin sensitization 1 H317 May cause an allergic skin reaction.

Acute toxicity 5 H333 May be harmful if inhaled.

- **Label elements**
- **Marking elements in accordance with the GHS**
This product is classified and labelled according to the Globally Harmonized System of Classification and Labeling of Chemicals (GHS).
- **Hazard pictograms**

GHS07

- **Signal word** *Cautious*
- **Hazard-determining components of labelling:**
üre tetrametilol astilen
- **Hazard statements**
 - H333 May be harmful if inhaled.
 - H317 May cause an allergic skin reaction.
- **Precautionary statements**
 - P101 *If a doctor's recommendation is needed: carry the product's packaging or label.*
 - P102 *Keep out of reach of children.*
 - P103 *Read the text on the label before use.*

(Continued from the page 1)

- P261 Avoid inhalation of dust/smoke/gas/mist/vapors/liquid sprayers.
 P280 Wear protective gloves.
 P304+P312 **IF INHALED:** Call a POISON CONTROL CENTER/doctor if you feel unwell.
 P333+P313 In case of skin irritation or rash: consult a doctor.
 P321 Application of special measures (see on this label).
 P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

· **Other hazards**

Results of PBT and vPvB assessment

PBT: Not applicable.

vPvB: Not applicable.

3 Composition/information on ingredients

· **Chemical characterization: Mixtures**

· **Description:**

· **Dangerous components:**

13463-67-7	titanium dioxide Acute toxicity 5, H333	≤2,5%
5395-50-6	üre tetrametilol astilen ⚠ Skin sensitization 1, H317	<0,151%
55965-84-9	reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1) ⚠ Acute toxicity 3, H301; Acute toxicity 2, H310; Acute toxicity 2, H330; ⚠ Skin corrosion 1C, H314; Eye damage 1, H318; ⚠ Acute toxicity to water 1, H400; Chronic toxicity to water 1, H410	<0,002044%

· **Additional information:** For the wording of the listed hazard phrases refer to section 16.

4 First aid measures

· **Description of first aid measures**

· **General warnings:** Remove clothing items contaminated with this product immediately.

· **After inhalation:**

Provide fresh air and call a doctor for safety. In case of loss of consciousness (fainting), place the patient on his side in a stable position for transportation.

· **After skin contact:** Rinse immediately with soap and water, and rinse well.

· **After eye contact:** Rinse the open eye under running water for a few minutes.

· **After swallowing:** If symptoms persist, seek medical advice.

· **Instructions for the doctor:**

· **Most important symptoms and effects, both acute and delayed**

· No further relevant information available

· **Indication of any immediate medical attention and special treatment needed**

· No further relevant information available.

5 Firefighting measures

- **Extinguishing media**
- **Suitable extinguishing agents:**
Take fire extinguishing measures appropriate to the surrounding conditions.
- **Special hazards arising from the substance or mixture**
No further relevant information available.
- **Advice for firefighters**
- **Protective equipment:** No special measures required.

6 Accidental release measures

- **Personal precautions, protective equipment and emergency procedures**
Not required.
- **Environmental precautions:**
- Dilute with plenty of water.
- Do not allow to enter the sewer system / surface or groundwater.
- **Methods and material for containment and cleaning up:**
- Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
- Dispose of contaminated material as waste in accordance with Paragraph 13.
- Ensure adequate ventilation.
- **Reference to other sections**
- See Section 7 for information on safe handling.
- See Section 8 for information on personal protection equipment.
- See Section 13 for disposal information.

7 Handling and storage

- **Handling of the substance:**
- **Precautions for safe handling**
- Ensure good ventilation/exhaust in the workplace. Avoid formation of aerosols.
- **Information about fire - and explosion protection:** No special measures are required.
- **Conditions for safe storage, including any incompatibilities**
- **Storage:**
- **Requirements to be met by storerooms and receptacles:**
No special requirements.
- **Information about storage in one common storage facility:** Not required.
- **Further information about storage conditions:** Absent.
- **Specific end use(s)**
- No further relevant information available

8 Exposure controls/personal protection

- **Additional information about design of technical facilities:**

No further data; see item 7.

- **Control parameters**

- **Components with limit values that require monitoring at the workplace:**

The product does not contain any significant amounts of substances with limit values that need to be monitored at the workplace.

- **Additional instructions:**

The lists that were current at the time of compilation served as the basis.

- **Occupational health and safety requirements and measures to ensure the safety of personnel**

- **Personal protective equipment:**

- **General protective and hygienic measures:**

Remove all contaminated clothing immediately. Wash your hands before breaks and at the end of work.

- **Respiratory protection:**

In case of short-term contact with the substance or when exposed to a low concentration substance, use a filter device for respiratory protection. In case of intensive or prolonged contact, a self-contained respiratory protection device should be used.

- **Hand protection:**

Protective gloves (mittens).

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

- **Material of gloves**

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material cannot be calculated in advance and has therefore to be checked prior to the application.

- **Penetration time of glove material.**

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

- **Eye protection:** It is recommended to wear safety glasses when transfusing the product.

9 Physical and chemical properties

- **Information on basic physical and chemical properties**

- **General Information**

- **Appearance:**

Form:

Liquid

Trade name: FAWORI TAVAN IDEAL

(Continued from the page 5)

· Color:	According to the product specification
· Odor:	Characteristic
· Odor threshold:	Not defined.
· pH level:	Not defined.
· Change in condition	
Melting point / range of melting temperatures:	Not defined.
Boiling point / boiling temperature range:	Not defined.
· Flash point:	Unsuitable
· Flammability (solid, gaseous substance):	Not applicable.
· Breaking down temperature:	Not defined.
· Auto-ignition temperature:	The product is not self-igniting.
· Explosive properties:	Product is not explosive.
· Explosion limits:	
Upper:	Not defined.
Lower:	Not defined.
· Vapour pressure:	Not defined.
· Density:	Not defined.
· Density index	Not defined.
· Vapour density	Not defined.
· Evaporation rate	Not defined.
· Ability to dissolve/ mix with water:	Completely mixed.
· Dispersion coefficient: n-octanol/Water:	Not defined.
· Viscosity:	
Dynamic:	Not defined.
Kinematic:	Not defined.
· Other information	No other relevant information is available.

10 Stability and reactivity

- **Reactivity** No further relevant information available.
- **Chemical stability**
- **Thermal decomposition / conditions to be avoided:**
No decomposition if used according to specifications.
- **Possibility of hazardous reactions** No dangerous reactions known.
- **Conditions to avoid** No further relevant information available.
- **Incompatible materials:** No further relevant information available.
- **Hazardous decomposition products:** No dangerous decomposition products known.

11 Toxicological information

- **Information on toxicological effects**
- **Acute toxicity:**
- **Sensitization:** Sensitization is possible through skin contact.
- **Additional toxicological information:**
Based on the calculation method of the EU General Classification Directive for Medicinal Products in its latest (current) version, the product presents the following hazards:
Irritating

12 Ecological information

- **Toxicity**
- **Aquatic toxicity:** No further relevant information available.
- **Persistence and degradability** No further relevant information available.
- **Behavior in ecological systems:**
- **Bioaccumulative potential** No further relevant information available.
- **Mobility in soil** No further relevant information available.
- **Additional ecological information:**
- **General notes:**
Water hazard class 2 (Self-classification): harmful to water.
Do not allow the product to enter groundwater, reservoirs, or the sewer system.
Harm to drinking water if even small amounts get underground.
- **Results of PBT and vPvB assessment**
- **PBT:** Not applicable.
- **vPvB:** Not applicable.
- **Other adverse effects** No further relevant information available.

13 Disposal considerations

- **Waste treatment methods**
- **Recommendation:**
Disposal together with household waste is unacceptable. Do not allow to enter the sewer.
- **Uncleaned packaging:**
- **Recommendation:**
Disposal must be made according to official regulations.
- **Recommended cleaning products:** Water, if necessary, with the addition of cleaning agents.

15 Regulatory information

- **Safety, health and environmental regulations/legislation specific for the substance or mixture**

There is no relevant information available.

- **Marking elements in accordance with the GHS**

This product is classified and labelled according to the Globally Harmonized System of Classification and Labeling of Chemicals (GHS).

- **Hazard pictograms**

GHS07

- **Signal word** *Cautious*

- **Hazard-determining components of labelling:**

üre tetrametilol astilen

- **Hazard statements**

- *H333 May be harmful if inhaled.*
- *H317 May cause an allergic skin reaction.*

- **Precautionary statements**

- P101 If a doctor's recommendation is needed: carry the product's packaging or label.*
- P102 Keep out of reach of children.*
- P103 Read the text on the label before use.*
- P261 Avoid inhalation of dust/smoke/gas/mist/vapors/liquid sprayers.*
- P280 Wear protective gloves.*
- P304+P312 IF INHALED: Call a POISON CONTROL CENTER/doctor if you feel unwell.*
- P333+P313 In case of skin irritation or rash: consult a doctor.*
- P321 Application of special measures (see on this label).*

P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

· **Chemical safety assessment:** A Chemical Safety Assessment has not been carried out.

16 Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

· **Relevant phrases**

- H301 Toxic if swallowed.
- H310 Fatal in contact with skin.
- H314 Causes severe skin burns and eye damage.
- H317 May cause an allergic skin reaction.
- H318 Causes serious eye damage.
- H330 Fatal if inhaled.
- H333 May be harmful if inhaled.
- H400 Highly toxic to aquatic organisms.
- H410 Highly toxic to aquatic organisms with long-term effects.

· **Contact information:**

· **Abbreviations and acronyms:**

ADR: Accord relatif au transport international des marchandises dangereuses par route (European Agreement Concerning the International Carriage of Dangerous Goods by Road)

IMDG: International Maritime Code for Dangerous Goods

IATA: International Air Transport Association

EINECS: European Inventory of Existing Commercial Chemical Substances

ELINCS: European List of Notified Chemical Substances

CAS: Chemical Abstracts Service (division of the American Chemical Society)

PBT: Persistent, Bioaccumulative and Toxic

vPvB: very Persistent and very Bioaccumulative

Acute toxicity 3: Acute toxicity – Category 3

Acute toxicity 2: Acute toxicity – Category 2

Acute toxicity 5: Acute toxicity – Category 5

Skin corrosion 1C: Skin corrosion/irritation – Category 1C

Eye damage 1: Serious eye damage/eye irritation – Category 1

Skin sensitisation 1: Skin sensitisation – Category 1

Acute toxicity to water 1: Hazardous to the aquatic environment - acute aquatic hazard – Category 1

Chronic toxicity to water 1: Hazardous to the aquatic environment - long-term aquatic hazard – Category 1
